Workstation Security Configuration

Applicable University of Colorado Denver Policies

University of Colorado IT Security Program Policy

All data and information resources of the SEHD are subject to University of Colorado's IT Security Program policy, APS-6005. The policy states that all University IT users must:

> Ordinarily, Highly Confidential informationshall not be stored on workstations and mobile computing devices (laptops, flash drives, backup disks, etc.) unless specifically justified for business purposes and adequately secured. If Highly Confidential informationis stored on a workstation or mobile computing device or transmitted to an external network or organization, IT resource usersshall encrypt or adequately protect that information from disclosure. If Confidential information is stored on a workstation or mobile computing device or transmitted to an external network or organization, IT resource users shall adequately protect that information from disclosure. In addition to encryption, adequate protections may include the use of passwords, automatic logoffs, and secure Internet transmissions.

University of Colorado Denver HIPPA Policy

The most secure SEHD data are subject to the UCD Workforce HIPPA policy.

SEHD Secure Data Server Reporting

Any individual that will report any known security related events as outlined in University of Colorado's IT Security Program policy related to the SEHD Secure Data Server or users of the data server to SEHDHelp@ucdenver.edu, OIT-RSS-Systems@ucdenver.edu, and oit-servicedesk@ucdenver.edu.
