Syllabus Policy & Templates

Introduction

While a syllabus is an essential component of good teaching, student learning, and outcomes assessment, it is also a guide used in the resolution of conflicts that may arise between students and their instructors. While a faculty member has great flexibility in the design and content of a syllabus for a course, core information should be found in every syllabus for courses offered at CU Denver.

Policy Statement

1. All faculty members must have a current syllabus for each course and must provide a syllabus to students at the first class meeting of every course. For details (including recommended boilerplate statements), please see the appended CU Denver Syllabus Template.
2. By census date of each term, all faculty members must provide their Dean's office with updated electronic copies of the syllabi for all courses they are teaching that term. The campus record retention schedule requires syllabi to be retained by the instructor until no longer needed for reference.

Appendix: Syllabus Template

Note: This syllabus template is provided as a model for providing clear expectations for student academic success. This template is designed to help instructors offer students the essential information they need at the onset of the course. A complete and professional syllabus helps to establish a relationship between faculty and students as it sets the tone for the course: communicates when, when and how students will learn; makes clear to students what they need to do in order to be successful; communicates expectations in terms of student responsibilities; and deters misunderstanding about course policies. In addition to the categories provided here, instructors at other institutions have included other optional information (e.g. Educational Opportunity Programs; Title IX/Sexual Harassment; Ombuds Office, etc.).
